FINAT LABEL
COMPETITION 2019
WINNERS
The competition attracted 285 entries from 45 companies representing 26 countries. This year, once again, Turkey led the way with 37 entries. Not far behind was the United Kingdom with 30 entries and Germany with 25. The number of entries in each class was led by Wines (58) with Alcoholic Drinks (33) and Cosmetics (19) not far behind. The entries in the purely digital categories was impressive with 21. It must be noted that many entries in the Marketing Group made use of digital technology either on its own or in combination with other printing processes.
The competition has an expert and dedicated team of judges led by Tony White of AWA Consulting. This year, he was supported by Murat Sipahioglu of Fin Etiket, Steve Wood of Steve Wood Services, Steven de Cleen of ProudDesign, and by visiting judge FINAT’s scout Noel Mitchell.

A COLOURFUL COLLECTION
The chair of the FINAT judging panel Tony White comments: “With more winning entries than previous years (120) we were delighted by the wide use of colour. I am always amazed that the degree of quality is not only maintained but continues to improve each year. We are always surprised by the imaginative ideas presented in the innovation and security classes which shows, by researching the needs of the customer, the label industry is able to introduce new, and in some cases, potentially lifesaving solutions. This is definitely an exciting and expanding industry to be involved in.”

</table>
The ‘Best in Show’ and the Marketing/End-use Group Winner is Multi-Color Corporation, Chile for Alto del Carmen Barricas de Selección. The entry stood out from all the high quality entries with its impressive array of finishing technologies used. The dramatic image of a bird in full flight caught the imagination of the judges with the design judge commenting: “The story unfolds in three layers of labels. Craft at its best.” A clear film was used to create the impression of a bird soaring in space. The two paper sections of the label added further interest with the hot foiling giving that touch of luxury. The clever use of a high gloss varnish to add depth to the body and wings of the bird gave the whole label great visual appeal.

The winner in the “Non-Adhesive Group” is Forlabels S.A., Greece for ADAMS Ouzo Santorini. Printed digitally this colourful sleeve was designed to allow the customer to easily carry a small bottle of his favourite drink when travelling. A white flexo primer was used to provide an opaque base for the four colour printing on the back side of the PET film base.

The winner in the “Innovation Group” is Schreiner Group GmbH & Co. KG, Germany for Smart Blister Pack. The concept behind this entry was to ensure that a patient is keeping to their medication regime. The medication is monitored remotely electronically and informs the clinician, via an electronic circuit, the time at which the medication is removed and is being used as prescribed. The data can be transmitted to a smart phone app using NFC or Bluetooth.

The winner of the “Digital Printing Group” is Germark S.A., Spain for Un Rêve Doux. This label is used as a backdrop to display a particular French perfume. The illustration gives the impression of a painting depicting Paris in a past century. The matt varnish and the hot foil gold framing add to the atmosphere.

The winner in the “Printing Processes Group” is Çiftsan Etiket, Turkey for Céu Shampoo. This is an excellent example of screen printing at its best. The small type was sharp and highly legible and contrasted well with the larger brand logo in black. Printed in 4 colours the raised screen images combined with the braille characters gave the label a very tactile feel. A high degree of skill was used to produce this label.

The hosts of the awards ceremony - Tony White and Mikaela Harding

JUDGES’ COMMENTS ON THE CATEGORY AWARDS

GROUP A
MARKETING/END-USES

A1 WINES
JOINT WINNERS

IPE, Industria Gráfica, Spain for Abadia da Cova Blanco 2017

An outstanding label printed in three colours plus hot foil and multi-layer embossing and debossing. This is effectively a two part label which would present challenges when applying to a bottle. Printed on a patterned paper substrate. Received high praise from the design judge.

Multi-Color North America
Wine & Spirits, USA for Pacific Rim Chenin Blanc Single Vineyard
This label gives the impression of age and wine from old vines. The balance of the peacock with the nicely gradated background and the excellent gold foil gives the label class. Subtle embossing adds depth to the label.

A2 ALCOHOLIC DRINKS

Multi-Colour Chile for Alto del Carmen Barricas de Selección
This award winning label stood out above the rest of the entries in group A. Printed using flexo and screen technology the fineness of the detail is outstanding. The use of two types of paper is a challenge but adds interest to the result. The addition of gold foiling gives a touch of luxury.

A3 NON-ALCOHOLIC DRINKS

ҪÇiftsan Etiket, Turkey for Shadlee Mocktail
This colourful label promises a colourful drink. The use of a metallised holographic film gives the unicorn a vitality which is enhanced by matt lamination and high gloss screen varnish. The mix of colours supports the cosmopolitan name of the label.

A4 FOOD PRODUCTS
JOINT WINNERS

Cabas S.A., Greece for Minoan Gaia-Select Harvest Extra Virgin Olive Oil
A great looking label with a modern yet classic look. The image of the goddess stands out against the plain white background and would stand out on the shelf. Digitally printed on an embossed textured paper the label carries all the mandatory information without being cluttered.

Doga Etiket, Turkey for Riccolivo Olive Oil
A dramatic looking label with a subtle screen pattern in the black background this contrasts with the bold gold band across the bottom of the label with the illustration of an olive tree in the centre. The reversed out white type adds yet another contrast level to the end result. The screen varnish adds depth to the larger more prominent lettering.

A6 HOUSEHOLD

ҪÇiftsan Etiket, Turkey for Sir Asprins Multi Purpose Stain Remover
An extremely busy colourful, shiny label with a series of mini illustrations identifying the journey of a stain through
to its elimination by using the product. Digitally printed the red background combined with the metallic base the label attracts the eye on the shelf. The brand is displayed in a prominent position.

**A7 INDUSTRIAL**

Doga Etiket, Turkey for Beko No Frost

A fairly straightforward label illustrating the difference in appearance of fruit when stored in a frost free atmosphere. Printed digitally the fruit looks fresh and appetising.

**A8 AUTOMOTIVE**

Skanem Liverpool, United Kingdom for 5 Ltr Castrol EDGE 5W30

The background colour of this label matches the container perfectly. The dynamic illustration shows the product in a dramatic form. The litho printed images are sharp and the use of a varnish gives the label protection in potentially greasy environments.

**A9 COSMETICS**

Stratus Packaging, France for Yves Rocher Sérum Afinant & Raffermissant

A nice sharp label printed using a combination of screen and flexo printing. The green lettering matches the bottle top perfectly. The varnish over the type is in perfect register.

**A10 PHARMACEUTICAL**

Çiftsan Etiket, Turkey for Fitfox BCAA 3300

A bright and busy label printed on a metallic base to enhance the appearance. The use of silk screen varnish highlights the main message. A special security black light ink is used along the bottom of the label to protect against counterfeiting.

**A11 SECURITY**

Securikett Ulrich & Horn GmbH, Austria for VOID label for bottles including NFC Chip

A small but very functional label which acts as a tamper free security device, a product verifier using the OR code and a NFC tag plus several other verification features. A flower pattern is designed to catch the eye in a club atmosphere.

**A12 BOOKLETS**

August Faller GmbH & Co. KG., Germany for INFO-SEC

A two page booklet with the second page easy to open and reseal through static adhesion. Type is easily readable and braille information is provided using screen printing. Simple to look at but a challenge to produce.
A13 PROMOTIONAL COUPONS

Multi-Color Cwmbran Ltd., United Kingdom for Shloer 2-ply neck promotion
This small, two ply label is printed digitally and consists of a paper base with the unique number and a cover sheet printed on a metallic base for security reasons. The really small type is perfectly legible.

A14 SELF-PROMOTIONAL LABELS

Achertäler Druckerei GmbH & Co. KG., Germany for Promotion Labels for Achertäler Druckerei
This set of labels shows off the print quality and the various finishing techniques that this printer has at his disposal. Excellent printing using all the main printing processes. Truly a showcase for Achertäler Druckerei and demonstrates their capabilities.

A15 SETS OF LABELS

Kolibri Labels BV, The Netherlands for Ron de Jeremy Rum
This is an outstanding set of labels with a unique story to tell. Design wise it scores high marks for printing the same. Basically printed using letterpress this limited edition shows how good letterpress printing can be. Could be mounted on a wall as a series of art pictures. Was a serious contender for a group award.

GROUP B PRINTING PROCESSES

B1 FLEXOGRAPHY

Multi-Color Italia S.p.A., Italy for Bertolli Olio Extra vergine di Oliva Original
A busy label printed on a gold metallised surface paper to give the impression of gold foil. The brand name stands out in bright red and contrasts with the actual product name in olive green. The overall stippled embossing gives a nice tactile feel to the label.

B2 ROTARY LETTERPRESS

Çiftsan Etiket, Turkey for Savon De Royal from MY Garden Luxury Hand Wash
A spectacular jungle of flowers on this very busy label with plenty to grab the viewer’s interest. The gold foil adds gravitas to the end result. Printed using letterpress the black type is extremely legible if a little small to be read without a magnifying glass! Nicely printed.

B3 SCREEN PRINTING

Çiftsan Etiket, Turkey for Céu Shampoo
An excellent example of very good screen printing with excellent rendering of the small type. The combination of embossing for the braille characters and the raised screen images gives a very tactile feel to the label. A nicely printed label offering several levels of skill.

B4 REEL FED OFFSET LITHO

Achertäler Druckerei GmbH & Co. KG., Germany for Kakuzo Tea infused Vodka
This label is designed to create the maximum shelf appeal with dramatic looking images with an Asian bias. The
very detailed images are enhanced by the delicate use of gold foiling. Vodka and tea sounds like an interesting drink!!

**B5 COMBINATION PRINTING JOINT WINNERS**

Insignis Etiketten, Germany for Payer Payer Wein Kultur

The label is deceptive as it contains several levels of expertise. The use of a negative image for the grapes combined with the heavy black high gloss areas with the brand name adds depth. The micro glitter finish adds a novel touch to the appearance. The gloss varnish covering the grapes contrasts nicely with the soft feel varnished background.

Çiftsan Etiket, Turkey for Wunderbar 2 Phase

A nice looking label with some dynamic images combined with the central gold and black dominating the entire label. The base of the label has a matt lamination layer which is a perfect foil for the sharp, small black silk screen type. The central image is designed to look like a can and has an excellent 3D effect.

**B6 GRAVURE**

Multi-Color Cwmbran UK Ltd, United Kingdom for Heineken 00

This label appears to be backed with a metalized surface film giving the appearance of foiling. With contrasting deep blue, red images and white as the brand name all framed by the shiny gloss effect gives the label that extra boost.

**GROUP C**

NON-ADHESIVE APPLICATIONS

CI SLEEVES

Forlabels S.A., Greece for ADAMS Ouzo Santorini

The concept of this label is that small is beautiful. A four colour image is printed on the surface which is then backed by two white coats of ink to give an opacity to the image which shows through the PET base. Digital printing was used throughout the production process.

**GROUP D**

INNOVATION & ELECTRONIC PRINTING

DI INNOVATION

Schreiner Group GmbH & Co. KG., Germany for Smart Blister Pack

The basic application for this label is to monitor electronically a medication regime for patients to ensure that they are taking the correct dosage. It also enables a 24 hr watch to ensure the patient’s compliance with the clinician’s instructions by using an integrated built in circuit.

**GROUP E**

DIGITAL

EI TONER TECHNOLOGY JOINT WINNERS

Amberley Adhesive Labels, United Kingdom for Jack Vettriano

An atmospheric set of labels giving the impression of a series of oil paintings. The dark background matches the colour of the bottle and the contrasting red brand name works well. The reversed out white type provides the essential information required on a spirit label.
Germark S.A., Spain for Un rêve doux

The matt silk screen varnish gives the illustration on this label the appearance of painting. The gold foil framing adds to the impression. Digitally printed this is a subtle label nicely printed.

Marzek Etiketten + Packaging, Austria for Mitzi

An eye catching set of labels using the digital technology to the fullest by changing the pattern on the dress with every image. Printed on a satin finish paper substrate the main brand type is enhanced using a screen varnish. A full cover varnish was added to protect the delicate images on the bottle.

Ö2 INK JET TECHNOLOGY

Royston Labels Ltd, United Kingdom for Treacle Moon Cucumber Cactus Cool shower gel

This is a vibrant label which teems with images making us think of music festivals of the 70’s. The use of ink jet technology gives a slight tactile feel which is reinforced by the white screen text. The clear on clear substrate and adhesive gives excellent clarity.

CONCLUSION

The awards were presented during the European Label Forum (ELF), 5-7 June in Copenhagen. In addition to the 27 Category and 5 Group winners a total of 93 Highly Commended certificates were distributed during the event. The FINAT winners of the 2018 World Label Award, judging of which took place just before Labelexpo Chicago, were also recognised during the ceremony.
