COMPETITION GROUPS/CATEGORIES

GROUP A MARKETING/END-USES

This group is designed to highlight the marketing influence that a label has in a particular market segment. The aesthetic properties of the entry feature strongly in the judging process and will be given priority treatment in the final selection for awards. In addition a high standard of technical printing and converting expertise is expected from all entries. Any combination of printing/converting processes may be used in the production of the label. However, special conditions apply to categories A1 and A9. (Wine labels will only be accepted in category A1. Cosmetic labels will only be accepted in category A9.)

GROUP B PRINTING PROCESSES

The categories in this group are specific to a particular printing process. (Note: a maximum of 10% of the TOTAL AREA of the label can include another PRINTING process). Additional converting features including hot and cold foil, embossing etc. can be used without penalty. The judges will expect a high technical standard of printing and converting. Faults such as misregister will be penalised heavily.

GROUP E DIGITAL
This group recognises the significant part that digital is playing in the modern label industry. The two categories are designed to cover the main digital printing technologies including toner and ink jet processes.

Labels in this group will be judged on the effective use of the respective digital process. The judges will expect a very high standard of printing and finishing including accuracy of die-cutting. Attention will be paid to the effective use of either inline or offline converting and the finishing technology used. Particular attention will be paid to the suitability of a design for the digital process and the use of colour. 7. Please include a copy (single sided print) of the online confirmation mail with the actual label you are sending by post.

CLICK HERE TO ACCESS ENTRY FORM

Please complete the questionnaire as accurately as possible and in one visit. After you have clicked on ‘submit’, or if you accidentally exit the form by closing the window, your link will be severed and you will not be able to access the same questionnaire anymore. To facilitate the entry process (the system is very laborious) you only need to fill in your address details once in case you have more than one entry. Make sure however to mention your company name and your email address in each subsequent entry.

When you submit your entry, you will automatically and immediately receive a confirmation in your e-mail box from Typeform. Make sure the e-mail address you provide is correct. Also check your spam folder in case you do not receive the notifications from Typeform. Please include a copy (single sided print) of this confirmation with the label you are sending by post. The accompanying labels, end-use products and pictures should be in our possession no later than 26 March 2021.

An answer is required for each question! We will treat your replies with the utmost confidentiality, but if there is technical info you do not want to share with the industry when our official report is published, make sure to select ‘No it is confidential’ under the questions ‘has the entrant given FINAT permission to’.
